**RE: CenturyLink Easement – Booth Falls Road**

Dear Mr. Kassmel,

As per our previous correspondence, CenturyLink need to obtain a communications easement on property owned by the Town of Vail on Booth Falls Road. The purpose of the easement is to allow for us to repair and replace existing communication facilities that serve Eagle River Water & Sanitation District.

Enclosed is a map showing the general location of the proposed easement area. CenturyLink needs to trench and bore approximately 1,000 feet, and we are requesting a 10-foot wide easement associated with such.

Please feel free to contact me by phone or email, if you have any questions or concerns.

Thank you in advance for your time and response.

Sincerely,

A handwritten signature in black ink, appearing to read "John Tekin", written over a light gray circular background.

John Tekin, SR/WA
