Senator Kerry Donovan
State of Colorado
Via email kerry.donovan.senate@state.co.us

Dear Senator Donovan,

Greetings from home, and thanks for all the important work that you are doing in Denver. I am writing to share our support for SB18-117 -- a bill that will deliver a much-needed and updated greenhouse gas inventory for the State of Colorado. The current statewide inventory does not reflect recently adopted Colorado laws and policies. SB18-117 will require the Department of Public Health and Environment to create biannual reports on greenhouse gas emissions in Colorado, by sector. This will, in turn, put Colorado in a stronger position to monitor GHG emissions toward the successful pursuit of meeting 2025 reduced emission goals.

The Town of Vail supports SB-117. In addition to the statewide benefits of having more accurate monitoring information, this bill will enable local governments like the Town of Vail to more accurately gauge how localized efforts are contributing to statewide reductions. Thank you, Senator, for advancing this important legislation ... we truly appreciate your dedication to this very important issue.

Very Sincerely,

Dave Chapin, Mayor

Greetings,

Senator Donovan and I would like to extend our most sincere thanks for your support on SB117. Unfortunately this bill failed in committee today with a 3-2 vote. The support for this bill from your community did not go unrecognized and was discussed during the hearing by Senator Donovan.

Please let me know if I can be of further assistance with this issue or any other.

Regards,

Xander Martin
