

Memorandum

To: Vail Town Council

From: Matt Gennett, Community Development Director

Date: August 20, 2019

Subject: Civic Area Plan Update

I. INTRODUCTION

Following up from our last update to Council on August 6, 2019, this presentation will focus on the master plan document itself and includes artistic renderings of the civic area hub with details on how the vision may be realized upon completion.

II. SUMMARY

The draft Civic Area Plan defines the vision for a community focal point in the Town of Vail; a place where facilities, activity, and programming will bring people together for cultural, social, and recreational experiences. It also lays out a framework for connecting the community, fostering collaboration, and creating spaces for residents and guests to share ideas.

The plan is about defining a vision for what this place can be and providing a path forward to the creation of this special place in Vail.

ACTION REQUESTED BY COUNCIL

Staff asks Council to review the presentation and provide direction to the project team.
