Subject: Drop the masks

Just want to encourage you to rescind the unsubstantiated and unenforceable outdoor mask mandate. We appreciate the time you put into being on the Town Council, but individual health is individual responsibility. If you believe cotton masks are really saving lives, I have suggestions that will truly save lives, such as banning cigarettes, fried food, alcohol, pharmaceutical drugs, and a whole host of things, but obviously that isn't the responsibility of the government ;-)

Thanks,
Steve Michonski

We are writing to ask you not to lift the mask mandate. A lot of Vail residents are elderly, or ancient like us!

The numbers of infections are not going down in Eagle County and we feel it is too early to lift the mask requirement on our streets. We were in Taos last week and they are very strict about wearing masks with posters everywhere saying "this is Taos style". Thank you for your consideration.

Hi,

Please repeal the current outdoor mask mandate for the Town of Vail! Thank you

Subject: Outside face mask mandate

Dear Vail Town Council,

I am writing to urge the Town Council to lift the outdoor mask mandate. The likelihood of outside transmission is nearly zero according to studies. The psychological effect on all of us is a much greater health risk than that of spreading covid outside. The oxygen at our altitude is already difficult for many and adding a face masks makes it even harder on them. The enforcement is so difficult. The citizen policing causes so much turmoil and agitation. Those who feel more comfortable wearing

a mask outside can still do so. We are all educated on the risks and facts and we can be trusted to make our own decisions.

Thank you,

Emily Kloser

Subject: Summer mask requirements

As the pandemic continues I feel eagle county and the town of Vail have been ahead of the curve!
With summer coming fast I would like to express my thoughts for a loosening of mask requirements given that consumers will be outside. Restaurants and shops will continue to thrive more if a sense of normalcy is available. I feel it would be good for the town to identify some personal responsibility and encourage consumers to wear their masks if they would like to, but to drop the requirement.

Thank you,
Corey Lamothe
