CAUTION: Email from outside OZ Architecture.

Good Morning Becky

Great to hear from you. I have copied Tom Kassmel, Town Engineer and Ryan Ocepek, Fire Marshall on this email. Perhaps an introductory meeting with Oz, Planning, PW, Fire and Building is appropriate.

If you would like to propose a time or two with an agenda that would be great. In general Thursday and Fridays are best.

Have a great week.

Subject: Lot 1 East Vail Housing

Hi Jonathan and Glen,

Happy New Year! We are working with Vail Resorts on the Lot 1 East Vail site. Specifically, we are working on the three 'dorm-style' structures at the entry to that parcel. Our team is hoping that we might schedule a zoom meeting with planning, building and fire (either together or phased... planning needed first) so that we can walk through where we are in the process. As you probably know, our team did not do the original entitlements for this parcel, those were done by Triumph. We have a few questions related to the conditions of approval that we would like to go through. We also have some general questions that have evolved as we started development of the plans.

I am copying Charley, the OZ PM, on this so we can try to establish an hour that might work for you both. We will also want Civil and Landscape to join the call. If helpful we can send you our list of discussion items early and hop on a zoom call to run through them.

Let us know if you have some slots available.

Will be great to work with you again on this site.

becky
