**Follow Up Flag:** Follow up  
**Flag Status:** Completed

**CAUTION:** Email from outside OZ Architecture.

Jonathan,

We appreciate everyone's time on Wednesday and your early comments from the 15<sup>th</sup> as it allows us to quickly address concerns and maintain a good path to the May 4 hearing.

As it relates to the sequencing plan, I believe we landed in a good place during our call and we will add dates (as requested by Tom) to the sequencing plan to further clarify the current proposal (that includes work across the entire site as part of Sequence 1) aligns with the prior approvals and has only been detailed based on the limitation on heavy construction as outlined in the wildlife mitigation plan. Additionally, Oz has already addressed the height and will send follow-up documentation which should closeout both comments.

We had initially expected Town comments today, but Oz and team are still prepared and resourced to address Town comments quickly and we look forward to seeing those Monday or early next week. We plan to quickly address comments and, as discussed, will send you drawings piecemeal (for alignment) prior to submitting a fully updated package addressing all comments as quickly as possible next week so we can get to the May 4 hearing. We are also happy to jump on a call to discuss/review any changes live to ensure we're making the process as easy and efficient for the Town as possible.

Thanks again,  
Kyle
