

Memorandum

TO: Vail Town Council

FROM: Community Development Department

DATE: August 15, 2017

SUBJECT: Commercial Ski Storage – Memo Only

I. PURPOSE

The purpose of this memo is to update the Town Council on progress relating to commercial ski storage.

II. UPDATE

On August 1, 2017, the Community Development Department presented a report on Commercial Ski Storage in order to engage the Vail Town Council in a discussion regarding the Town's policy concerning commercial ski storage, ski valet and ski concierge services. At the end of the discussion, Town Council recommended the creation of a Task Force of ski and lodging industry business owners and managers to study this issue in greater detail, and provide feedback to the Town Council.

Fourteen members of the ski and lodging industry signed up for the Task Force, and several others contacted the Community Development Department after the meeting, expressing interest in participating.

Based upon availability of business owners and managers, meeting dates and times have been established for the Task Force. The attached documents outline the upcoming meetings for the Task Force. We are currently planning for three meetings of the Task Force before returning to the Town Council on September 5th.
